

Bending Stiffness Test Fixture

BQ Technologies' bending stiffness fixture features splayed feet and aggressive no-slip rubber pads for stability. It is manufactured of aerospace-grade aluminum alloy with a hard anodized, scratch-resistant, durable finish to provide years of rigorous testing and trouble-free service.

The test fixture includes the card clamping stand; a card stop gauge to provide the precise cantilever dimension; a 0.7 N stainless steel weight; and a movable stainless steel scale for precision accuracy.

BQ Technologies' Bending Stiffness Test Fixture is designed to perform the bending stiffness test according to the following standards:

- Mastercard CQM
- ISO/IEC 7810
- ISO/IEC 10373-1
